Education

Nova School of Business & Economics — Lisbon, Portugal
MSc in Finance — *Sep. 2026 – Dec. 2027*

ISCTE – University Institute of Lisbon — Lisbon, Portugal
BSc in Computer Engineering — GPA: 17/20 — *Sep. 2023 – Jun. 2026*

- **Relevant Coursework:** Algorithm Design & Analysis (19/20), Probabilities & Stochastic Processes (18/20), Mathematical Methods for Computation (18/20), Concurrent & Parallel Programming (18/20)
- Erasmus Exchange at Hogeschool van Amsterdam — GPA: 9/10

Experience

Cloudflare — Lisbon, Portugal
Product Manager Intern – Cloudflare One, Zero Trust — *Jun. 2026 – Present*

- Leading product development of two DLP projects, Test Scan and Passive Detection, owning PRDs, requirements, UX, copy, prototypes, documentation, and cross-functional coordination with engineering.
- Authored strategic PRDs identifying major gaps in Cloudflare One's Zero Trust platform, including endpoint security and a new approach to enterprise security, addressing opportunities worth millions in potential business value.
- Partnered with engineering on product prototypes and API design, including review of the Passive Detection API endpoint; also handled customer escalations, sales requests, and product documentation improvements.

Aptoide — Lisbon, Portugal
iOS Software Engineer Intern — *Jul. 2025 – Sep. 2025*

- Built the iOS integration for CloudGaming from scratch, embedding the Anbox Stream WebRTC SDK in a native Swift/SwiftUI app through WKWebView, enabling users to stream Android-only games on iOS.
- Developed the native–web bridge, streaming session lifecycle and error handling, authentication flows, and CloudGaming UI; shipped the feature to the Aptoide iOS App Store.

Extincêndios — Lisbon, Portugal
Efficiency Intern — *Dec. 2024 – Mar. 2025*

- Built and deployed a React/Python document-translation platform, producing 80% translated drafts of complex manuals in Word for Portuguese and Spanish teams and reducing manual translation effort.
- Automated internal email routing using Python, IMAP/SMTP, and the OpenAI API, classifying incoming messages through a multi-step validation process before forwarding them to the appropriate team member.

Augusta Labs — Lisbon, Portugal
Freelance Developer — *Feb. 2024 – Apr. 2024*

- Built AI automation tools using Python, React, RAG, and LLM APIs, including a knowledge-based chatbot for answering questions from proprietary information.
- Developed automated data-extraction workflows for social media and email, including web scraping, CV parsing, information extraction, and structured database generation.

Projects

Heads-Up Texas Hold'em AI | *Python, C++, MCCFR* — 2025

- Built a heads-up Texas Hold'em AI using Monte Carlo Counterfactual Regret Minimization (MCCFR), with card/action abstraction and information-set management.
- Implemented a high-performance C++ poker engine with Python bindings and evaluated strategies through large-scale simulations; Monte Carlo bot achieved a 96.95% win rate over 2,000 matches against a random baseline.

Private Email Service | *Linux, Docker, Nginx, SMTP, PHP* — 2020

- Built and operated a private email service from scratch on an Ubuntu VPS, deploying Mailcow and Roundcube with custom authentication, landing pages, and UI.

- Configured the production infrastructure and security stack, including Nginx, SMTP, SSH, FTP, firewall rules, and server hardening.

Encryption Suite | *C#, Cryptography, VeraCrypt, PGP* 2019

- Built a desktop encryption suite in C#, implementing disk/volume encryption via VeraCrypt, file encryption, PGP key generation, and encrypted email workflows.
- Designed the application interface and explored steganography, integrating third-party cryptographic libraries throughout the project.

Involvement

Echoo Lisbon, Portugal

Co-Founder & Product Manager *Jun. 2025 – Dec. 2025*

- Co-founded and launched the *Younger Next Year* podcast with Dr. Manuel Pinto Coelho, leading end-to-end product development and implementing an AI-powered voice production pipeline using ElevenLabs.
- Reached 15,350 lifetime plays and 4,018 listeners across platforms with a zero-budget production model.

ISCTE Investment & Trading Club Lisbon, Portugal

Head of Asset Management *Feb. 2026 – Jun. 2026*

- Led a 20-person Asset Management team, coordinating equity research, reviewing investment analyses, and delivering training and presentations on valuation and financial markets.

Web Summit Lisbon, Portugal

Team Lead, Volunteer *Nov. 2023/2024*

- Led an 8-person team coordinating logistics for 70K+ attendees, ensuring smooth entry and cloakroom operations.

Skills & Interests

Product: Strategy, Roadmapping, GTM, User Research

Networking & Systems: TCP/IP, HTTP, SMTP, IMAP, WebRTC, WebSockets, Linux, Nginx

AI & Data: RAG, LLM APIs, NumPy, pandas

Finance: Equity Research, DCF Valuation, Financial Analysis, Bloomberg

Languages: Python, C++, Swift, TypeScript, SQL

Technologies: React, React Native, Next.js, FastAPI, SwiftUI, Docker, Git, PostgreSQL

International: Portuguese (Native), English, Spanish

Interests: Marathon, Chess, Golf, Poker
